

NOTE DI SICUREZZA PER L'ASSEMBLAGGIO DEI TUBI  
SAFETY NOTES FOR ALL HOSE ASSEMBLIES

- Do not overbend the hose assembly or exceed its minimum recommended bend radius;
- Do not revolve or stretch the hose;
- Do not use couplings to the hose than those expressly made, recommended or specified by Ractek;
- Do not use the hose for pulling;
- Do not convey fluids through the hose assembly or expose the jacket or any other part of the hose to fluids, which have not been approved by Ractek;
- Inspect the hose assembly periodically.

Performance largely depends on local conditions and the proper care of the equipment. Ractek does not accept liability for any damage or injury caused by improper use of our equipment, nor caused by negligence.

Ractek reserves the right to alter the specifications given in this publication without further notice, in line with our policy of continuous improvement.
